The general counsel in the impeachment court is to submit as evidence the bank documents on Chief Justice Renato Corona in Philippine Savings Bank (PSB) accounts, according to law. Philippine Star.

Corona's bank signature could play a major role in the impeachment court's decision in striking out or admitting evidence on the bank records.

Impeachment spokesman Francisco Dela Cruz said the court should be allowed to submit as evidence the bank documents on the bank records.

"We will leave it to the discretion of the court to decide whether to submit as evidence the bank documents on the bank records," he said.

# IS THERE A LEVEL PLAYING FIELD IN THE TOBACCO INDUSTRY?

As the debate on "Sin Taxes" rages in Congress, arguments have proliferated on whether or not there is a level playing field in the tobacco industry.

A leading Philippine cigarette manufacturer (the "Manufacturer") notably insists that "there is no unequal treatment between existing and new brands".

Nothing, though, is further from the truth as the cold, hard facts below completely belie this insistence:

**FACT:** Under the current law (the "Law"), brands present in the market as of 1996 enjoy permanent excise tax classification. Their classification does not change even if they increase their retail prices.

**FACT:** New brands introduced after 1996 are classified based on current retail prices. For example, a brand introduced in 2012 will be classified based on 2012 retail prices.

**Based on the above facts, this is how the law operates in reality:**

Marlboro 100s brand  
Retail Price: P10.00  
Classification: High Price  
Tax Rate Per Pack: P 10.30

Brand B: 10 cigarettes per pack  
Retail Price: 9 pesos or P9.00  
P10.00 for classified as: Premium  
Tax Rate Per Pack: P10.30

- Two similar products, priced exactly the same, pay different excise tax rates only because one is a 1996 brand and the other is a 2012 brand
- The difference is an incredible P10.30 per pack!
- Marlboro, being a 1996 brand, enjoys "classification protection" under the Law and therefore, pays only P10.00 per pack! Resultantly, the Manufacturer saves P10.30 for every pack of Marlboro sold in the Philippines!
- Truth be told: this system of permanent excise classification causes the Philippine Government to lose tens of billions of pesos annually!

## SADLY, THIS IS HOW "LEVEL" THE PLAYING FIELD IS IN THE TOBACCO INDUSTRY!

While the Supreme Court, in a decision rendered in 2008, upheld the constitutionality of the Law, it categorically conceded the finding "that the law seems to derogate, to a limited extent, one of its avowed objectives (i.e. promoting fair competition among the players in the industry, [and] would suggest that, by Congress' own standards, the current excise tax system on sin products is imperfect."

The Manufacturer, with its portfolio of 1996 brands, now controls 94% of the Philippine cigarette market. Understandably, it wants to preserve the current, imperfect system of cigarette taxation at the expense of the Philippine Government and consuming public.

No more! The Law, protective, as it has been for the longest time, of a virtual monopoly, must go and the classification protection it fosters, abolished. The market deserves the benefit of competition and the tobacco farmers to have more buyers for their products!

**IT IS TIME TO SUPPORT THE GOVERNMENT'S CALL FOR SIN TAX REFORMS,  
TRUE LEVEL PLAYING FIELD AND MATUWID NA DAAN!**

## Luisita farmers ask SC to start land distribution

A group of farm workers of the Cagayan Valley Farmers Union (CAVAFU) filed a petition with the Supreme Court (SC) yesterday to enforce its decision ordering the distribution of the 4,950.72-hectare sugar estate in Talibon to the farmers.

In their motion for distribution and judicial intervention, the farm workers said Hanksa Caneers Inc. (HCI) had not complied with its court-ordered duty to carry out the distribution of the estate in an open, competitive and timely distribution system.

In light of the long-pending disposition of the estate, the petitioners asked the SC to order HCI to carry out the distribution of the estate in an open, competitive and timely distribution system.

"Should not questions about the legitimacy and constitutionality of the land tenure be left to the courts? The estate is a sugar estate and should be distributed and it can only be considered necessary,"

petitioners farm workers signed the motion, which was filed at the offices of CAVAFU.

A bigger group of farm workers belonging to the Agrarian Reform League (ARL) also filed a petition with the SC yesterday to enforce its court-ordered duty to carry out the distribution of the estate in an open, competitive and timely distribution system.

The SC had ordered HCI to carry out the distribution of the estate in an open, competitive and timely distribution system.

The petitioners had unanimously agreed to carry out the distribution of the estate in an open, competitive and timely distribution system.

presented to an order of the Presidential Agrarian Reform Council (PARC) in December 2009.

The SC also directed HCI to pay the original estate workers more than P1.2 billion for the loss caused by the sale of the estate to the private sector.

The appeal, HCI sought distribution of the estate to be paid to the farm workers and asked the SC to return to the original farm workers the subdivided estate in a timely manner. HCI said to ensure constitutionality of the sale of the estate, the SC should order HCI to carry out the distribution of the estate in an open, competitive and timely distribution system.

Through Lawyers Maria Elena Ayon, HCI said the court's ruling would be a violation of the constitution and the distribution of the estate should be left to the private sector. HCI said the court's ruling would be a violation of the constitution and the distribution of the estate should be left to the private sector.

presented to the SC's resolution resulting from the appeal of the SC.

Accordingly, they asked the SC to issue a writ of habeas corpus and order HCI to carry out the distribution of the estate in an open, competitive and timely distribution system.

The SC, through Solicitor General Francisco Torres, said it will not issue a writ of habeas corpus.

# Big names in oil exploration flock to Phil

By Jodi-Jennifer L. Wilson

Local and foreign investors are competing to snag new service contracts for road and petroleum projects from the Philippines despite a heavy terrorist stigma with China.

The Department of Energy (DOE) is already evaluating pre-qualification documents submitted by private and state-owned firms prior to the auction bidding that will start this month.

The Philippine Petroleum Energy Corporation Board (PEEC), a consortium of state-owned and private companies, is evaluating pre-qualification documents submitted by private and state-owned firms prior to the auction bidding that will start this month.

As of 11 a.m. on Feb. 28, the DOE said it received 10 pre-qualification documents from interested companies. The deadline was 1 p.m. on the same day.

Last July, the DOE awarded PEEC a contract to build a new oil and gas pipeline from the Palawan Strait to the Luzon Strait, a 100-kilometer project.

Laying the pipeline is a major infrastructure project that will help the Philippines become a major oil and gas hub in the region.

*Yes, Marie France really works!*

"When I started in 4Q, it seems much harder to lose weight journals. I was 124 lbs. and with my 5'7" height, say that's my problem. I decided to know French. They gave me a weight-loss program that effectively targeted my problem, but, amazingly, no papers. The treatment also lost and how up my body... and, no sugar! I was on my right side. (After clients are on, they say 'You look great! You look wonderful!') It's great being on paper to find you look great. You should do it to find out about this new program. Everyone agrees."

## Hail our very own fabrics!

We have much to be proud of with our own own Philippine textile industry.

All the Philippine fabric designers and producers are showcased by the Philippine Textile Industry Institute, an international trade show and exhibition. The institute has been a leading force in the textile industry for over 50 years, and its annual event is a must-see for anyone in the industry. ## Mars vs Venus: The gender gap in heart disease

GRAPHIC BY

By **THOMAS B. HAYES, M.D.**

It's a well-known fact that women are at a higher risk of heart disease than men. But why? The answer lies in the biology of the heart and the hormones that regulate it. In this graphic, we explore the gender gap in heart disease and how it can be closed.

*A woman's symptoms are often different from a man's, and she's much more likely than a man to die within a year of having a heart attack.*

Heart disease is the leading cause of death in the United States. But while men are more likely to die from heart disease, women are more likely to survive. This is because women's symptoms are often different from men's, and they are more likely to die within a year of having a heart attack.
